

ECO HIVE[®]

15W Down Lights

Ceiling Pattern

Goldwyn's ECO HIVE is a new downlight in an aesthetic design. Architects can install ECO HIVE in many imaginative patterns on the ceiling to provide a dramatic effect above the areas requiring greater intensity of lighting, such as above seating arrangements, dining tables, reception counters, etc.

ECO HIVE can also be installed in suspended or track mounted solutions. This accords the flexibility to use the ECO HIVE as focus light in shops, showrooms, hotels and restaurants.

The new ECO HIVE permits you to play with your imagination to create dramatic effects by the placement of Down Lights in ways that were not possible before.

Features

- Aesthetically pleasing design.
- Can be installed in different patterns on recessed ceiling.
- Can be used as suspended or track mounted solutions.
- Driver available with 3 Step Dimming option to 100%, 35% and 10% brightness.
