

MOSAIC Downlight

Indoor Luminaire

MOSAIC the new range of downlights offered by Goldwyn brings completely new approach towards the aesthetics and designs of the downlights.

The new design of MOSAIC makes it a versatile product. It can be recessed mounted either single or in different imaginative patterns on the ceiling thereby providing a very dramatic effect over the illuminated areas. The luminaire can also be suspended from the ceiling again individually or in different combinations. The luminaire also gives the user the ability to use as focus light by mounting on the track using suitable accessories.

MOSAIC has a pressure die cast heat sink for excellent thermal properties. The bezel and other accessories are made of high quality material giving the product a premium look and extremely long life.

MOSAIC permits you to play with your imagination to create dramatic effects by placement of downlights in ways that were not possible before.
