

# POLAR Garden Bollard

Parks

Hotels

Clubs

Campuses

Roundabouts

Goldwyn's new POLAR Bollard is an ideal light for architects to choose for their landscape projects.

The POLAR Bollard has a unique 3 layer glass diffuser and LED light engine that provides a very pleasing even distribution of light throughout the diffuser.

The top of the pole mounting of the light diffuser spreads the light evenly in all directions, providing an all round light pattern to light up pathways in parks, industrial and education campuses, clubs, exhibitions and convention centres and hotels.

The POLAR Bollard comes with an Aluminium Mounting Pole which can be provided in any desired finish, colour or height.

POLAR Bollard is a truly affordable best in class light and exported to several countries.

## Specifications
